

Coverage Results: Simulation 1

Intercept: logit(0.1) | Surgery Coeff: -0.2 | Constant Baseline Hazard
Follow-Up: 36 Months | Contrast: Per Protocol

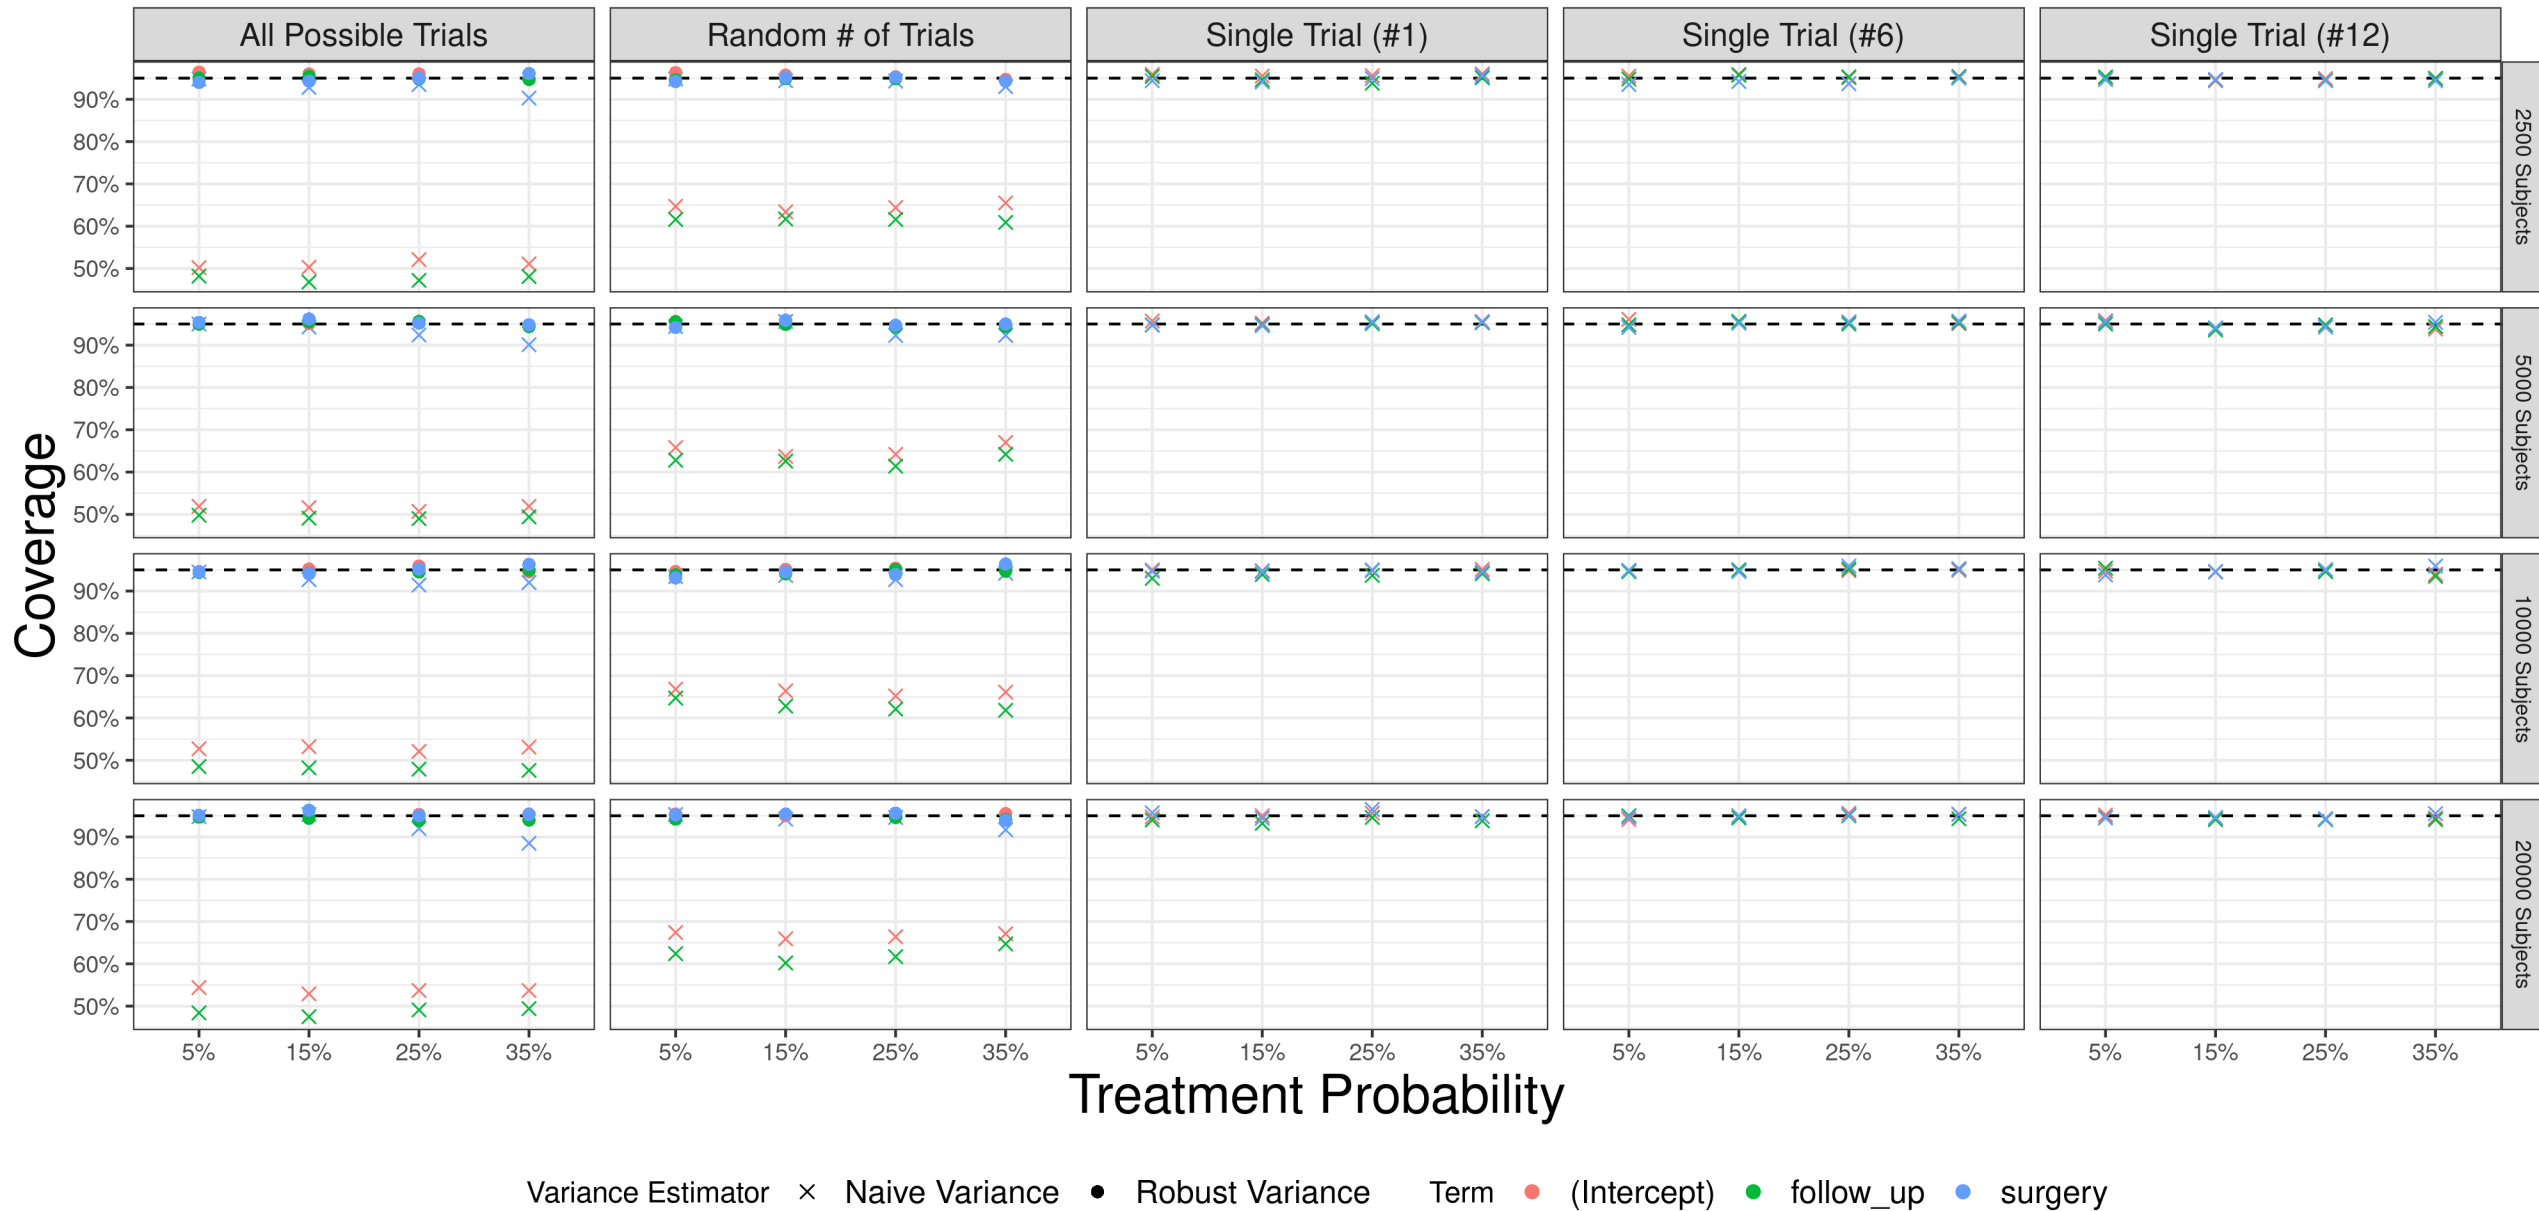

Coverage Results: Simulation 2

Intercept: logit(0.075) | Surgery Coeff: -0.025 | Constant Baseline Hazard
Follow-Up: 36 Months | Contrast: Per Protocol

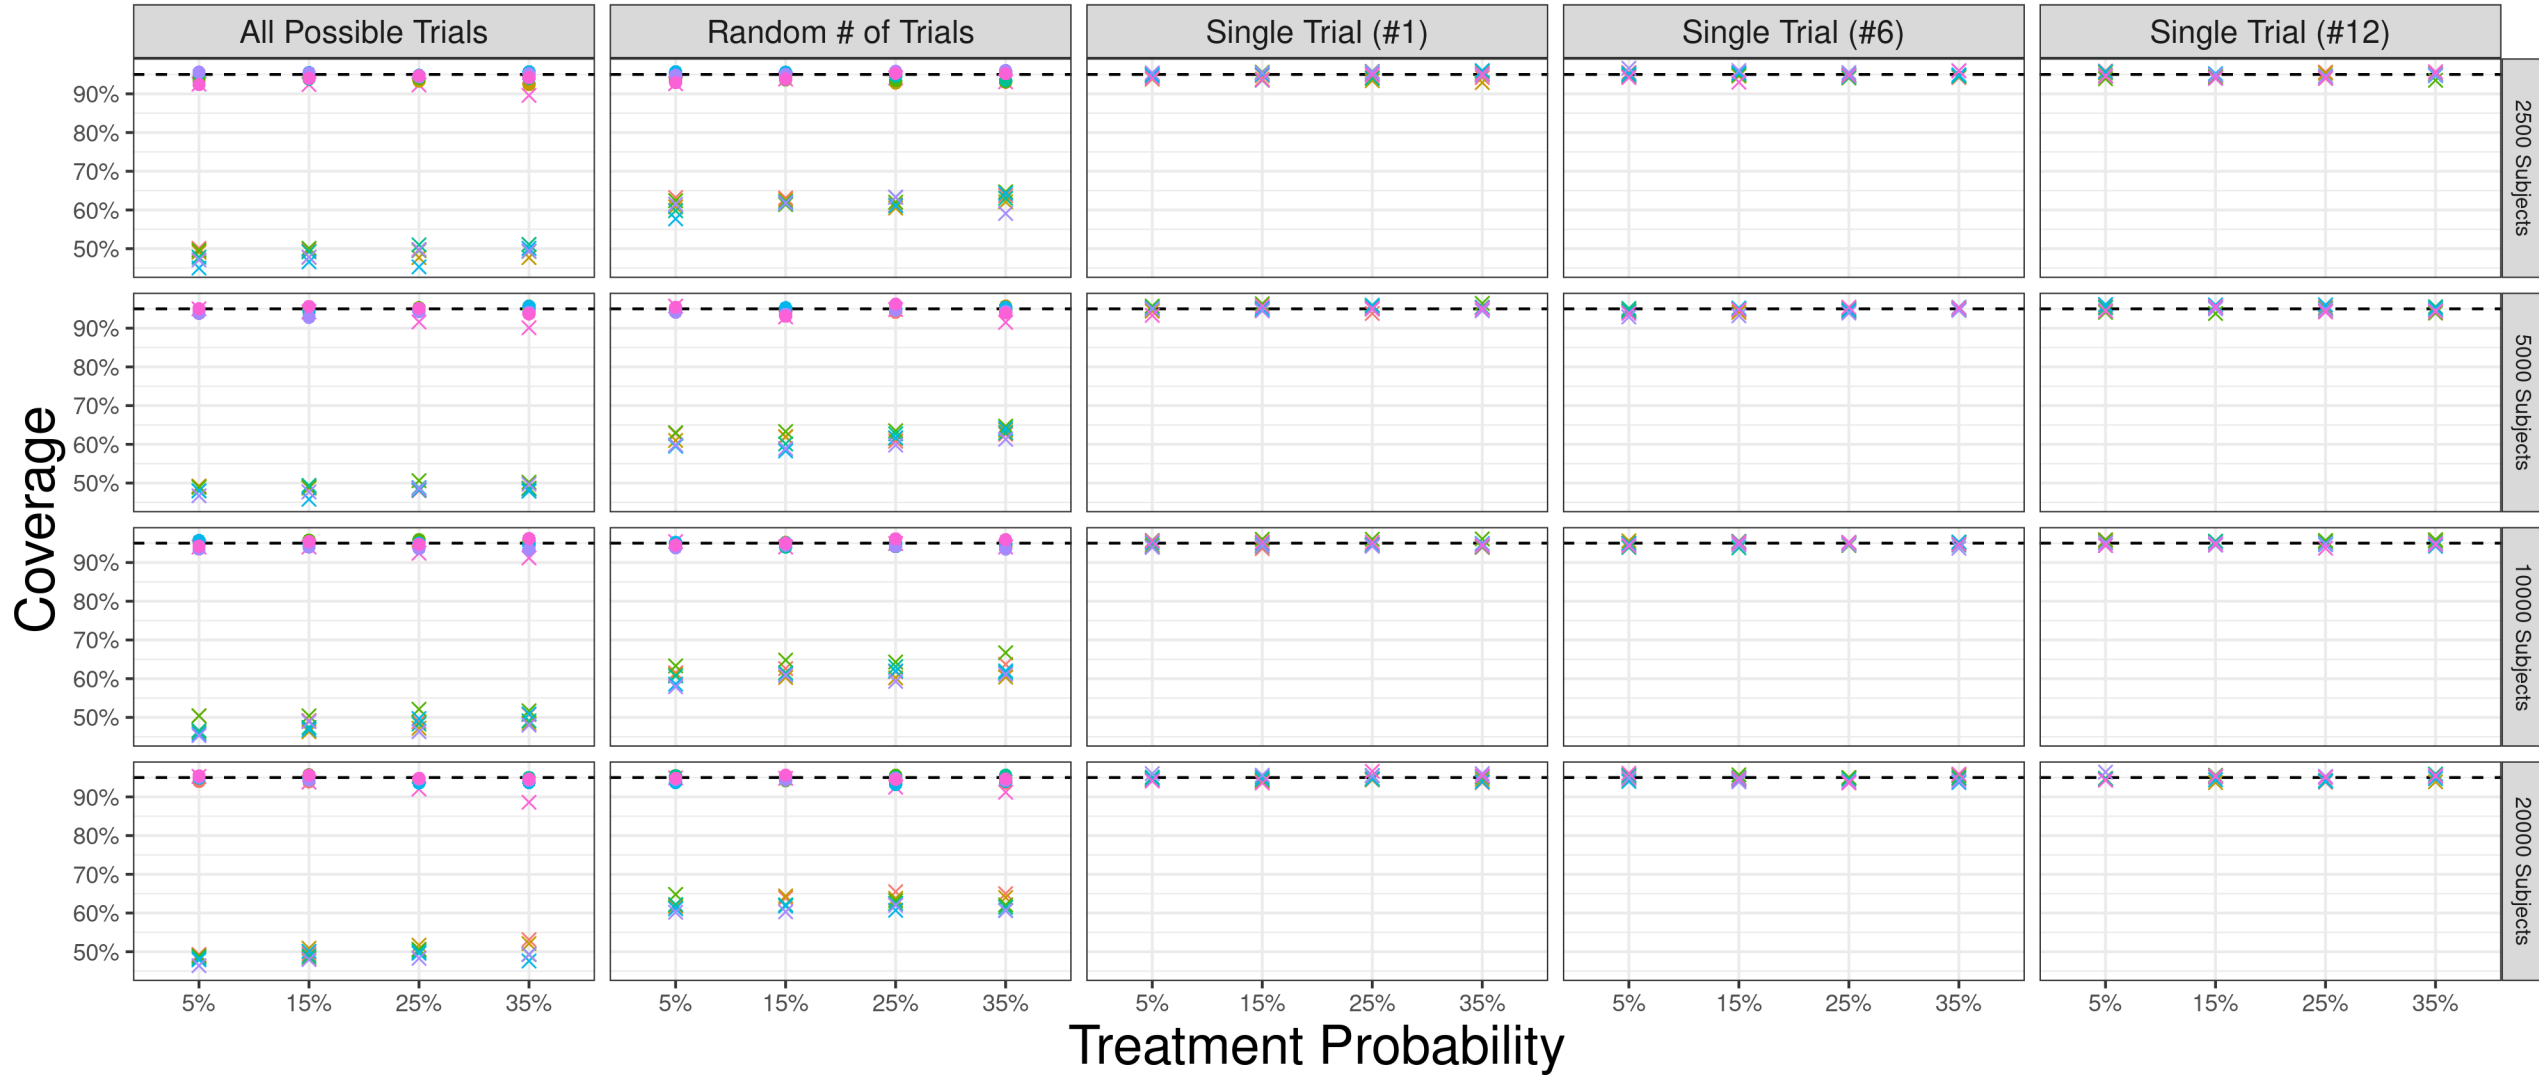

Coverage Results: Simulation 3

Intercept: logit(0.05) | Surgery Coeff: -0.05 | Linear Baseline Hazard
Follow-Up: 36 Months | Contrast: Per Protocol

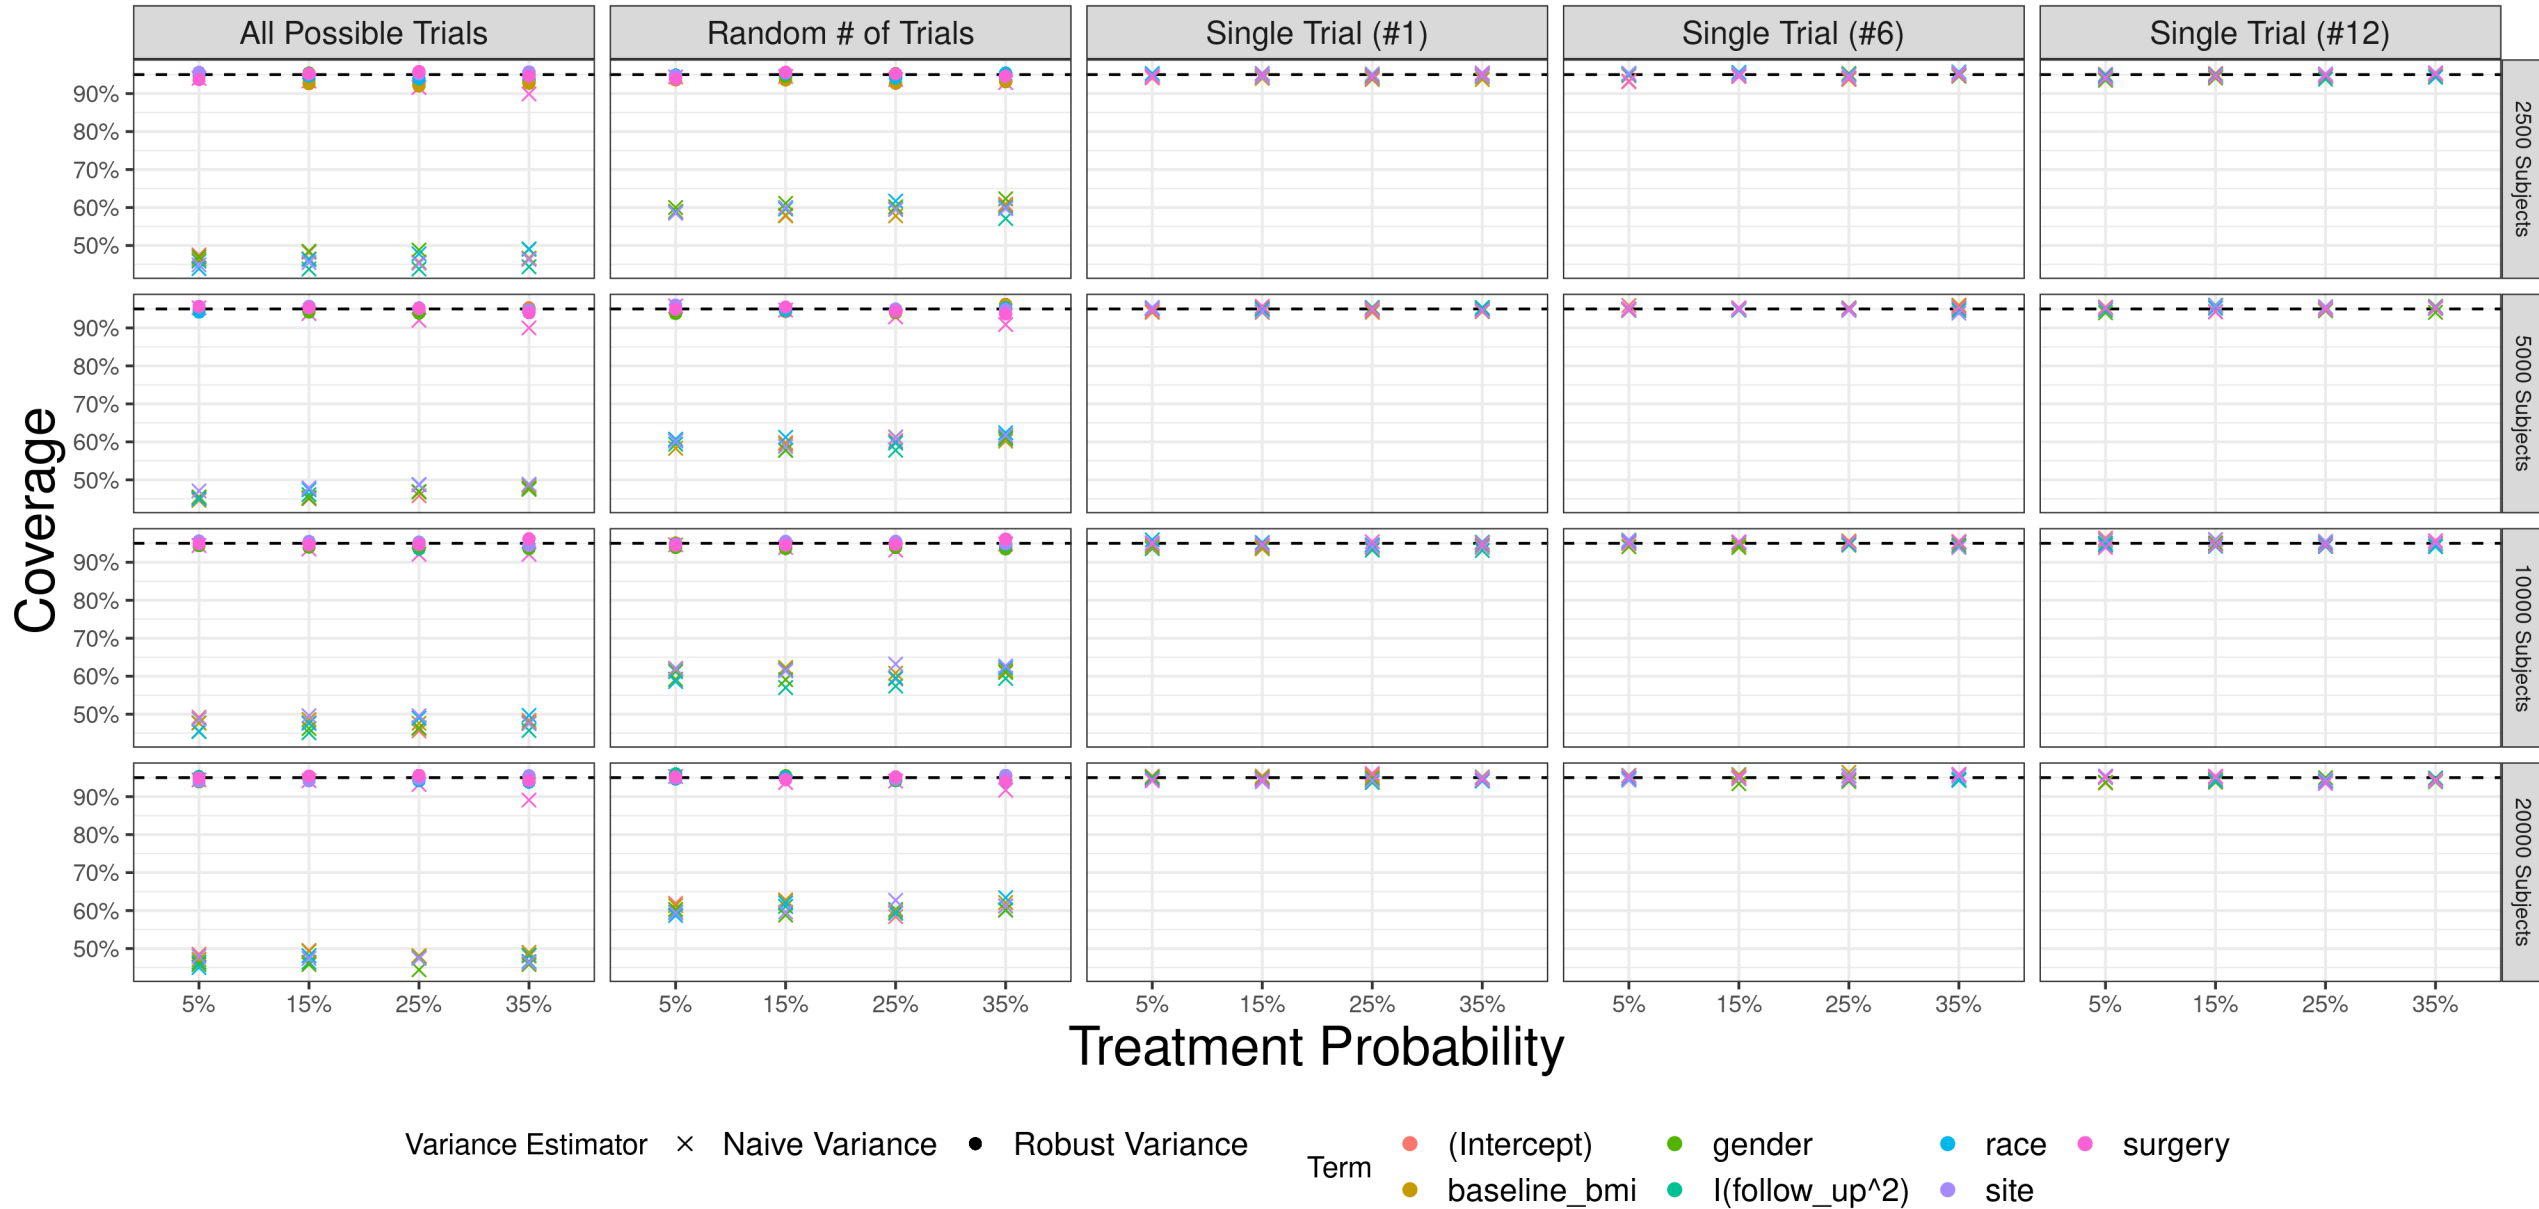

Coverage Results: Simulation 4

Intercept: logit(0.05) | Surgery Coeff: -0.05 | Linear Baseline Hazard
Follow-Up: 36 Months | Contrast: Per Protocol

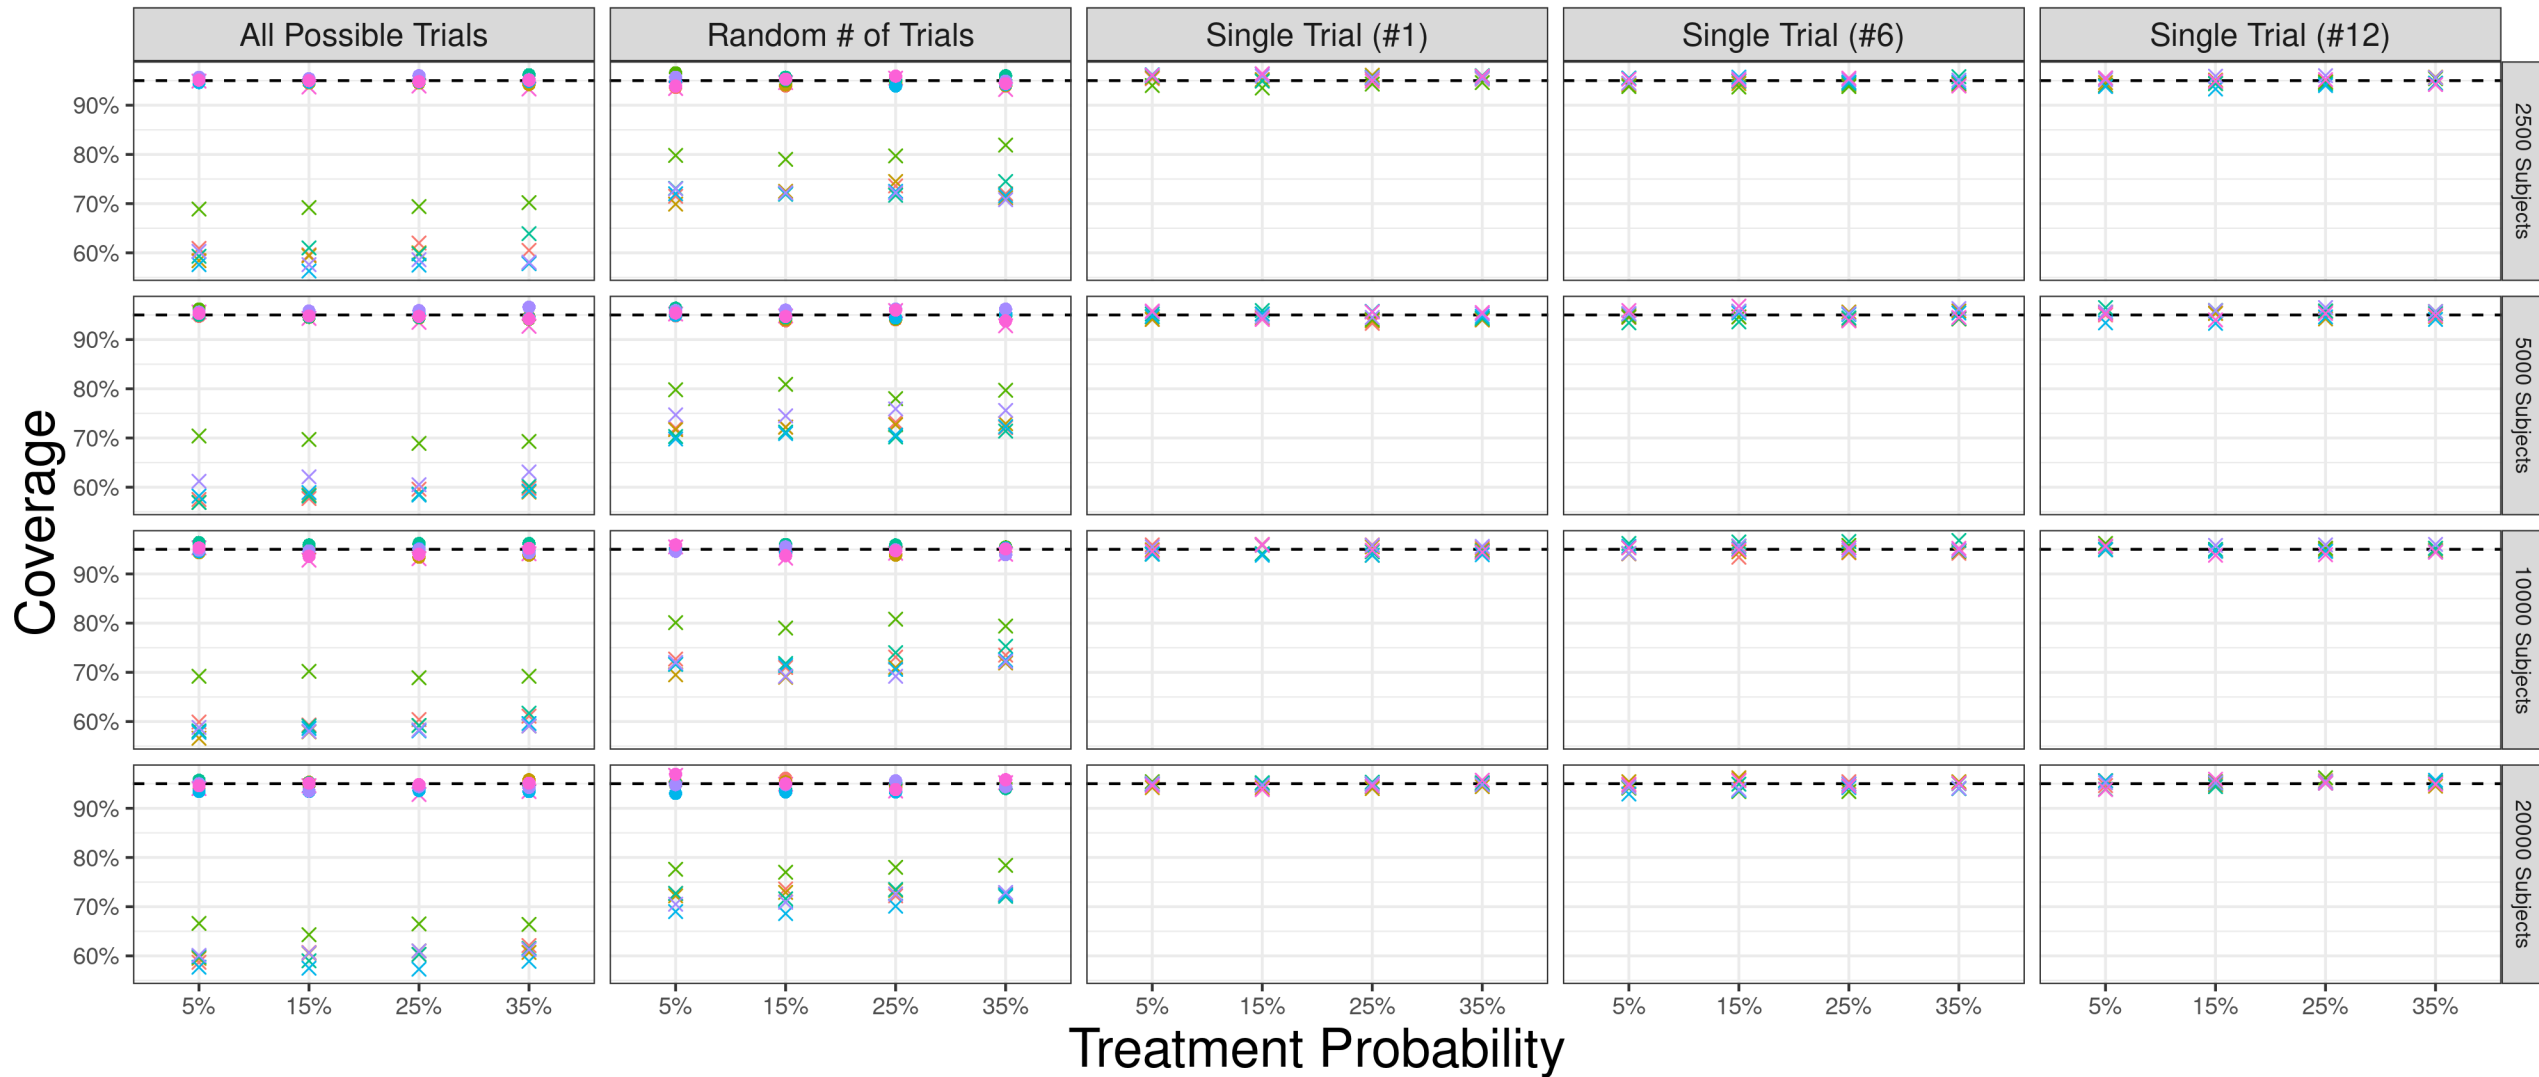

Coverage Results: Simulation 5

Intercept: logit(0.05) | Surgery Coeff: -0.05 | Quadratic Baseline Hazard (Weibull)
Follow-Up: 36 Months | Contrast: Per Protocol

Coverage Results: Simulation 6

Intercept: logit(0.05) | Surgery Coeff: -0.05 | Linear Baseline Hazard
Follow-Up: 6 Months | Contrast: Per Protocol

Variance Estimator × Naive Variance • Robust Variance
